The "Book of Wisdom" is said to hold secrets of immortality. You are sent on a quest to retrieve this book from a fallen temple of Athena. You are warned that minotaur may have found the book and has started the ancient ritual. Meanwhile there is a war raging in the region and the temple library is a perfect vantage point.

When the player(s) assemble the sword they can fit it into a slot in the circle of shelves. Then they can use it as a key. When they do so, the shelf swings open to display a dark space. When they step inside the shelf shuts red eyes appear revealing a minotaur. The player(s) may use the sword to defeat the beast and gain the book.	Labyrinth The labyrinth does not move, but there is a feeling of being watched. The player(s) hear sounds but no source. There are also 3 hobgoblins in there looking to turn the library into a war base.
